

WISA®-Spruce | Multi use plywood panels

Strong, lightweight and versatile, WISA®-Spruce offers superior performance and value. Designed for structural and load-bearing applications it is easy to handle and work with. It is made from environmentally certified Nordic Spruce and meets all the relevant environmental standards. WISA®-Spruce plywood acts as a carbon sink throughout its lifetime and its life cycle contribution to fossil CO₂ emissions is very low. The climate benefits of the product are listed in its Environmental Product Declaration (EPD), in accordance with EN 15804:2012+A2:2019 and third party verified.

The sustainable construction panel has many variations – all of which maintain the superior characteristics and technical functionality of the original WISA®-Spruce.

WISA®-Spruce Special

Panel's smooth and solid surface extend the usage beyond structural applications for joinery, shopfitting, furniture and DIY projects.

WISA®-Spruce^{FR}

A structural panel with built-in fire retardancy according to Euroclass B (B-s1,d0 and B_{f1}-s1) - one product to cover the fire safety requirements. Storing, handling and installing a single product instead of several materials is quicker and easier.

WISA®-Sprucefloor

A half-size purpose made engineered panel with T&G profile in size 2400 x 600mm. A panel specifically designed for flooring applications makes subflooring installation effortless.

WISA®-Spruce^{WR}

Water repellent panel which saves time at construction site from constant covering against rain. Wood-based surface treatment inhibits the absorption of water – yet allowing the wood to dry after rain.

WISA®-Twin

Structural panel with spruce core and birch surface. The lightness of spruce plywood and the beautiful light looks of birch - typically used in more visible applications, such as shopfitting, furniture and DIY.
